

DISSOL-GEL

Alcaline and high viscosity clearing agent

DESCRIPTION:

DISSOL-GEL is a high viscosity quick-acting clearing agent, particularly effective to clear drains and pipes clogged with organic deposits such as hair, paper, food waste, fat residues, etc. Formulated with stabilized inorganic alkali, with a high specific weight facilitates its spread into the clogged pipes. It is a very concentrated product alkaline-based that neither corrode nor damage metallic or synthetic pipes

APPLICATIONS:

DISSOL GEL can be used in any toilet, for sinks, sanitaires, drain traps, septic tanks, particularly for restaurants and kitchens in general.

INSTRUCTIONS FOR USE:

For sinks, showers, bidets, small pipes: pour slowly into the drains the quantity of the product required:

- Sinks and washbasins: 1/5 of the bottle
- Toilets and drains in general: 1/3 of the bottle

Wait form 15 to 30 minutes and rinse with plenty water, preferably hot.

Attention:

Pour slowly and do not stay near while the product is working. Do not use together with other chemicals. Do not contact aluminum, galvanized sheet and magnesium alloys. Avoid contact with skin and use goggles and rubber gloves. The product in contact with water develops heat.

N.B. Never mix with other acid-based clearing agents (e.g. DISSOL) or hypochlorite (e.g. bleach).

TECHNICAL DATA:

Composition	Sodium hydroxid
Apparance	liquid, transparent, viscous
Smell	practically without smell
Colour	colorless / slightly opalescent
pH	13,0 ± 0,5
Boiling point	> 100 °C
Flash point	not inflammable
Explosive properties	absent
Oxidizing properties	absent
Solubility	water-soluble
Relative density @ 20 °C	1,30 g/cm ³ ± 0,05

PRECAUTIONS:

Wear sealed gloves for alkaline substances and side-shield glasses to prevent accidental spills of the product.

Prevent the product from reaching the ground, waterways or sewers. Otherwise notify the competent authorities. Collect the liquid with absorbent material (sand, absorbent powders), clean the area with plenty of water. Dispose of the material according to local and national regulations in force.

HANDLING AND STORAGE:

Store in tightly closed original containers at temperatures below 50 ° C. Store separate from food for human or animal use. Avoid contact with aluminum and with acids (thermal reaction) and strong oxidizing agents.

WARNINGS:

H314 – Causes severe skin burns and eye damage.

P260 – Do not breathe dust/fume/gas/mist/vapours/spray

P280 – Wear protective gloves/protective clothing/eye protection/face protection.

P303+P361+P353 – IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

P305+P351+P338 – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 – Immediately call a POISON CENTER or doctor/physician.
