

# CLIMAFAST TUBI

Liquid for washing of fridge lines

## DESCRIPTION:

Is the most direct, simple and fast solution to flush small Refrigeration Lines Conditioning and Refrigeration System's Components.

## HOW HE WORKS:

Climafast Tubi is pressurized with CO2 in Aerosol Cans and can be used directly either in a safe and clean way, through the use of a special professional Gun for washing (CLIMAFAST TUBI GUN), or directly pressing the specific rubber cone (CLIMAFAST TUBI MAN).

The cylinders are single use and have an effectiveness for lines of about 4 - 5 meters.

## ADVANTAGES:

- Ready to use.
- High washing pressure.
- Constant pressure until the tank is empty
- No need to use other equipment
- It leaves no residue
- Internal washing.
- Quick and complete evaporation.
- Dries quickly, evaporates from the system in a few minutes and without residues.
- Rapid repairs, to reduce costs and time.
- Effective.
