

PASTA GREEN

Antiscuff paste for hydraulic fittings always soft

DESCRIPTION:

Ready-to-use non-hardening putty paste putty for hydraulic, hygienic, sanitary and industrial appliances and fittings. Antiscuff, antioxidant, excellent preservative for hemp and gaskets, mineral fibers, etc. It keeps its plasticity and stability over the time even after many years. Non-toxic. No safety data sheet is required according to Regulation 1272 of 2008.

COMPOSITION:

Mineral fats and oils, petrolatum, mineral fillers, pigments

APPLICATION FIELDS:

PASTA GREEN is easy to use and is indicated to obtain a perfect seal of threaded and flanged connections and joints, used with hemp in the threaded joints, while in the flanged ones it must be spread on asbestos-free gaskets, fibers, rubber etc. Also suitable for hot and cold water piping, natural gas, gas and food liquids.

TECHNICAL DATA:

Appearance	creamy paste
Color	grey - green
Relative density @ 20 °c	1,65 ± 0,010 g/cm ³
Flash point	> 300 °C
