

# CLIMASAN PHARM

Ready-to-use disinfectant for surfaces and textiles,  
Industrial filters - air conditioning systems  
summer-winter

Bacteria Virus with Yeast Envelope

**Medical Surgical Device – Ministerial Authorization No. 21206**

**Contains: Didecyldimethylammonium chloride 0.1%; Propan-2-ol 48.5%**

## DESCRIPTION:

Ready-to-use broad-spectrum disinfectant, without rinsing and rapid evaporation. With virucidal (virus with envelope), bactericidal and yeasticidal action, suitable for multiple applications in home care, food industries, Ho.Re.Ca., hospital sector, offices and communities, transport, automotive, caravans, boats. In the case of surfaces intended to come into contact with food and drink, it will be necessary to rinse with drinking water, after disinfection, before use. AHU (Air Handling Unit) filters, HVAC (Heating Ventilation Air Conditioned) systems and wherever the use of the registered product is required. In the medical field, the product is only recommended for the treatment of surfaces that are not frequently touched, such as floors.

## HOW TO USE:

Before treatment with Climasan Pharm, it is a good idea to proceed on dirty surfaces with a preliminary treatment of thorough cleaning by suction-detergent. Dispense a sufficient amount directly onto the surfaces to be treated using a special trigger to make the product act for 10 minutes. For a bactericidal and yeasticidal action, 5 minutes of contact time on surfaces are sufficient. The powerful action of Climasan Pharm, thanks to its highly concentrated and effective formulation, eliminates and prevents the proliferation of microorganisms and odors, pleasantly perfuming. In the case of surfaces intended to come into contact with food or drink, it will be necessary to rinse with drinking water after disinfection, before use.

## TECHNICAL DATA:

Transparent clear liquid appearance  
Mediterranean essence  
pH  $6.5 \pm 0.5$   
Complete water solubility  
Relative density @ 20 °C  $0.931 \pm 0.005$  g/ml  
Stability in stock 24 months

## PACKS:

Item number CLISANPHA0750, 750 ml bottles with sprayer in boxes of 12 pcs.  
Item code CLISANPHAK005, 5 lt jerrycans in boxes of 4 pcs.
