

# SMALTOP CERAMIC

Ceramic-effect enamel

## DESCRIPTION:

Special spray paint specifically designed to restore the original shine of sanitary ware, sinks, bathtubs, showers, appliances. It is also ideal for renewing the colour of tiles or retouching glazed surfaces.

## HOW TO USE:

Shake the cylinder vigorously for at least 1 minute, until you feel the inner marbles move freely. It is also advisable to shake the cylinder occasionally even during use. Carefully clean the surface before application. Test in a hidden area to check compatibility with the substrate to be painted.

DISPENSING: apply a first light coat to improve coverage and adhesion and thus reduce the possibility of dripping. Application distance approx. 20 cm. After a few moments, apply a second horizontal coat followed immediately by a third vertical coat. Leave to dry for a few minutes. After use, it is advisable to spray for 2 to 3 seconds with the can upside down, to avoid clogging the dispenser. After 24 hours, proceed with normal use of the painted piece.

## TECHNICAL DATA:

Appearance of cylinder containing liquid under pressure

Volume

400 ml

Acrylic chemical nature

White

Characteristic solvent odor

Relative density @ 20 °C 0.76 ÷ 0.80 mg/lt

Flash point < 0 °C extremely flammable

Pressure @ 20 °C 5.5 ± 1 bar

Pressure @ 50 °C 8 ± 0.5 bar

Ford Cup viscosity from 10 to 13"

Dry residue in cylinders 13.5%

Gloss from 70 to 80 Gloss (60° angle glossmeter)

Thickness 1 nebulization 13 ÷ 18 microns

Thickness 3 sprays 36 ÷ 40 microns

Operating temperature -10°C ÷ +120°C (130°C peaks)

Dust-free drying time: 10 minutes

Dry to the touch: 15

minutes

Dry in full depth: 22 hours

## STORAGE METHODS:

Before use: Store the product in a dry place at temperatures between +5 °C and +45 °C; keep the containers tightly closed after use. If stored in the original packaging, the product can be stored for a maximum of 18 - 24 months.

After first use: store in a cool, dry place, away from heat sources. Keep out of reach of children.
