

SOLVENT FOAM

Spray cleaner for polyurethane foam

DESCRIPTION:

Spray solvent for cleaning polyurethane foam guns.

SOLVENT FOAM is a new spray cleaner specially formulated to remove traces of uncured polyurethane foam from any surface.

It is a product that acts quickly by dissolving and eliminating the foam and is easy to use, thanks to its special valve it can also be screwed on the foam gun to clean the residues inside.

It is also equipped with a dispenser button to use the spray can without screwing it onto the gun.

N.B. It does not dissolve dry foam, which can only be removed by mechanical action (with a spatula or sandpaper).

TECHNICAL DATA:

Pressure vessel appearance with base and liquefied gas

Characteristic smell

Neutral pH

Flash point < 21 °C

Propellant self-flammability temperature 287 °C

Steam pressure 3 ÷ 5 Bar

Water solubility: none

Complete Liposolubility

Extremely flammable flammability

PACKAGING:

Item number SOLV500, 500 ml pack in boxes of 6 pieces.

Last update: 19.01.2023
