

ENVIRONMENTAL DECLARATION

It is everyone's responsibility to operate in a safe and environmentally friendly manner through:

- The application of specific laws, European management system standards and corporate standards.
- Ensuring the prevention of pollution and accidents.
- Ensuring continuous improvement through effective participation in all company processes.

All company resources are involved in the commitment to:

- Comply with the legislative requirements and fulfilments applicable in the countries in which the Company operates, with regard to Health, Safety and the Environment.
- Assess in advance and reduce, as far as possible, the impacts associated with new products and processes.
- Prevent pollution and avoid or reduce the use of hazardous substances.
- Reduce the consumption of energy and resources, favouring reuse and recycling.
- Reduce waste production, emissions, discharges and losses.
- To ensure the protection of employees, contractors and the public with an integrated approach that includes adequate information, safety training, health protection and work organisation on Safety, Health and Environmental aspects.

For the continuous improvement of its environmental performance Facot Chemicals

- Defines improvement objectives;
- Plans the necessary activities and their improvement;
- Defines a programme with precise targets for the gradual pursuit of the expected improvement;
- Carries out the planned activities in a controlled manner and provides adequate resources;
- Periodically reviews the programme and the progress of the Environmental Management System and defines any changes.
